

Textamend eExample dDocument for Editing service

This ~~is an example~~ document ~~demonstrates~~ I've put together to show what the editing, proofreading and remediation services ~~look like~~ in a real-world example. ~~The content is a bit meta but that seems like the best move for something like this.~~ I figured ~~the best way to make this useful was to~~ do the following:

- Keep this document to a single page.
- Include a few ~~different~~ types of text and style elements, such as complex lists and tables.
 - Note the difference in the remediated versus unremediated table below.
- Show ~~how that an initially~~-well-formatted Word document can become an easy-to-remediate PDF.

Speaking of the remediation service, consult the following ~~table to learn more.~~

A table of Textamend's services and ~~our~~ prices:

Service	Turnaround time					Unit
	14 days	10 days	7 days	3 days	1 day	
Editing service	\$10	\$15	\$20	\$30	\$40	500 words
Proofreading service	\$6	\$9	\$12	\$18	\$24	500 words
Remediation service	\$12	\$18	\$24	\$36	\$48	Five 5 pages (few forms) ¹
						One 1 page (many forms) ¹

¹If "few: and "many" feels too arbitrary, just reach out as described below.

~~For longer documents, And~~ you can ~~simply just purchase~~ stack multiple ~~orders of the same products~~ until you match the length of your document.

~~But~~ you can always ~~just contact me~~ reach out by either filling out the ~~free consultation form~~ or just ~~emailing me~~ (Textamend Owner/Operator Joaquín Selva) directly!

Commented [JS1]: I removed words like "look" and "see" according to the principles of accessible language.

Commented [JS2R1]: Similarly, according to the principles of plain language, I changed things like "the best move" and "reach out" since they are somewhat idiomatic.

Commented [JS3R1]: (Feel free to ask me for clarification if I've made any of this confusing.)

Commented [JS4]: I just felt this was unnecessary; you can of course restore it if you want!

Commented [JS5]: I centered everything in the table because I personally think that looks better; feel free to reverse this change if you disagree!

Formatted: Centered

Formatted Table

Formatted: Centered

Formatted: Centered

Formatted: Centered

Commented [JS6]: Please verify that the intended meaning has been preserved here.

Commented [JS7]: If you wanted, you could go for a more personal approach by just having this whole sentence be a link that basically says "Email me!"

If you really want to ~~understand~~see the difference between the remediated and unremediated versions, [download a screen reader like NVDA](#) and check for yourself!
