

Textamend Example Document for Remediation service

This document demonstrates the editing, proofreading and remediation services in a real-world example. I figured the best way to make this useful was to do the following:

- Keep this document to a single page.
- Include a few types of text and style elements, such as complex lists and tables.
 - Note the difference in the remediated versus unremediated table below.
- Show how an initially well-formatted Word document can become an easy-to-remediate PDF.

Speaking of the remediation service, consult the following table to learn more.

A table of Textamend's services and prices:

Service	Turnaround time					Unit
	14 days	10 days	7 days	3 days	1 day	
Editing service	\$10	\$15	\$20	\$30	\$40	500 words
Proofreading service	\$6	\$9	\$12	\$18	\$24	500 words
Remediation service	\$12	\$18	\$24	\$36	\$48	Five pages (few forms) ¹
						One page (many forms) ¹

¹If “few: and “many” feels too arbitrary, just reach out as described below.

For longer documents, you can simply purchase multiple orders of the same product until you match the length of your document.

You can always contact me by either filling out the [free consultation form](#) or just [emailing me \(Textamend Owner/Operator Joaquín Selva\) directly!](#)

If you really want to understand the difference between the remediated and unremediated versions, [download a screen reader like NVDA](#) and check for yourself!
